- **M365:** Exchange, Teams, OneDrive
- **Security:** MFA, VPN, Conditional Access
- **Support:** Level 1/2, SLAs, Remote
- **Mgmt:** Intune, Autopilot, Jamf
- **ITSM:** Freshservice
- **Networking:** DNS, DHCP, TCP/IP
- **Hardware:** Laptops, POS, AV, VoIP
- **Virtualization:** ESXi, Windows Server
- **SaaS Apps:** Lightspeed, Deputy, Monday.com
- **Network Mgmt:** Cisco Meraki

SOFT SKILLS

- Time management
- Customer service & Stakeholder communication
- Incident management
- Logical problem solving
- Documentation & Knowledgebase management
- Adaptability
- Problem solving & Troubleshooting
- Leadership & team management
- Team collaboration
- Vendor management

PROFESSIONAL EXPERIENCE

IT Support Officer | AL ASEEL GROUP, SYDNEY, NSW
Jul 2024 to Present

- Served as the primary point of contact for 200+ staff across 9 high-volume restaurant environment. , diagnosing and resolving 95% of Level 1/Level 2 incidents.
- Administered M365 and Entra ID (Azure AD), executing secure user onboarding and enforcing Role-Based Access Control (RBAC) across the integrated application stack.
- Managed the end-to-end lifecycle of an iPad-based Lightspeed POS ecosystem, overseeing iOS updates, MDM enrollment, and hardware maintenance to ensure 100% trading availability.
- Administered network and telephony services, including 3CX VoIP extensions, call routing, and troubleshooting local DNS/DHCP connectivity issues.
- Orchestrated critical SaaS integrations between Lightspeed POS, payment terminals (Lightspeed Payments/Tyro), and Deputy, ensuring seamless data synchronization between sales, finance, and workforce management systems.
- Managed onboarding and offboarding process for staffs across Lightspeed, Deputy, and Monday.com; implemented standardized profile configurations and secure access controls to ensure day-one productivity and immediate revocation of access for departing employees.

Customer Service & Leadership Roles | AL ASEEL GROUP, SYDNEY, NSW
Feb 2020 to Jul 2024

- Led diverse teams of 15+ in high-pressure environments, focusing on staff training, rostering, and conflict resolution.
- Worked successfully with diverse group of coworkers to accomplish goals and address issues related to our products and services.
- Promoted high customer satisfaction by resolving problems with knowledgeable and friendly service.
- Provided daily deskside support to non-technical staff, assisting with password resets, login issues, and access to internal rostering apps (Deputy/Sevenrooms).
- Resolved common hardware faults on receipt printers and POS terminals, including clearing paper jams, replacing consumables, and reseating cables.

CERTIFICATIONS & TRAINING

Professional training via Coursera: (View Credentials Portfolio: aayushacharya.com.au/certifications.pdf)

- Endpoint Administrator Associate (MD-102)
- Cisco Certified Support Technician (CCST)
- Google IT Support Professional Certificate
- ServiceNow ITIL Foundation
- CompTIA A+ preparation (Core 1)

TECHNICAL PROJECTS

Enterprise Infrastructure & Security Architecture (Microsoft 365 E5)

- **Identity & Access Management (IAM):** Architected a production-grade Microsoft 365 E5 tenant, implementing Entra ID (Azure AD) to manage user lifecycles and enforce strict Role-Based Access Control (RBAC) across the simulated enterprise.
- **Zero Trust Security Framework:** Engineered granular Conditional Access policies and enforced Phishing-Resistant MFA, reducing the theoretical attack surface by restricting access based on user risk and device compliance signals.
- **Endpoint Management Strategy:** Orchestrated Mobile Device Management (MDM) workflows using Microsoft Intune, configuring Windows Autopilot profiles for zero-touch device provisioning and automated patch compliance.
- **Hybrid Infrastructure Simulation:** Deployed virtualized Windows Server 2022 instances to simulate on-premise infrastructure, hardening security posture through advanced Group Policy Object (GPO) configurations and network segmentation.

DNS & Network Architecture: Administered complex public DNS zones, configuring MX and TXT records to authenticate enterprise email servers and utilizing A/CNAME records to orchestrate custom domain redirection to distributed web hosting platforms (GitHub Pages).

EDUCATION

Bachelor of Computer Applications (Cloud & Security) | In Progress(distant learning/Part-time)

Full time work availability

Manipal University

- **Academic Focus:** Specializing in software/web development, Cyber Security, Hybrid Cloud infrastructure, and Enterprise Network Administration.
- **Relevant Coursework:** Enterprise Cloud Computing, Network Security Fundamentals, Linux System Administration, Database Management Systems (DBMS).

Bachelor of Information Technology (Undergraduate Coursework) | 2018 to 2020

King's Own Institute (KOI), Sydney

- Completed 2 years of core coursework building a foundational understanding of Information Technology and network architecture.
